Quality Policy

We are committed to being very aggressive in our attitude towards quality and customer service, primarily since we want to be ranked as the "best" in our business. Quality is not just another goal, it is our basic strategy for survival and future growth.

SCORPIO ENGINEERING COMPANY

Quality Objectives

Our quality objectives are to furnish high quality Services, on time, and at the lowest cost. The attainment of such objectives will lead to, customer satisfaction, enhanced Service performance at the application level, and ongoing improvements in process efficiency. Once an objective is achieved, it should be recognized and reset to stimulate further quality improvement. To reach our objectives, we will have to maintain a constant focus on quality with full dedication, commitment, and teamwork.

SCORPIO ENGINEERING COMPANY

Our Vision

Our journey is Total Quality Management which fully satisfying our customer requirements through a process of continuous improvement. It's critical to understand that Total Quality Management is not a short term program. It's a long term commitment aimed at continuously improving the way we work, providing a safe work environment, managing our business processes, and supplier selection/retention. It is our goal to posture our company for market expansion, thereby providing improved job security and quality of life for all
